

MEDICAL STATEMENT FOR DIVING

PLEASE READ CAREFULLY BEFORE SIGNING.

This is a Medical Statement in which you are informed of the key risks involved in SCUBA diving, and the conduct expected of you during your Shark Dive experience. To enrol in the Shark Dive experience, you are required to read the below Medical Statement, which includes the Medical Declaration Questions. Your signature on this document is required for your participation in the Shark Dive Xtreme experience.

PLEASE READ THE FOLLOWING CAREFULLY PRIOR TO BOOKING

You **MUST** be at least 14 years of age to participate - any diver under the age of 18 must have a parent or legal guardian in attendance at the dive safety briefing on the day.

Shark Diving is an adrenaline fuelled activity and can be demanding for some. When performed correctly, using the right technique, it is relatively safe. It is important that all established safety procedures are followed as to not increase the risk of this activity.

Diving can be strenuous under certain conditions therefore **You must** be in good health and **not suffer from:** respiratory and circulatory problems, coronary disease, cold or congestion, epilepsy, or any severe medical problem/s.

IMPORTANT: IF YOU HAVE TESTED POSITIVE FOR COVID – 19, PLEASE REFER TO SEA LIFE MELBOURNE AQUARIUM'S SDX COVID-19 MEDICAL QUESTIONNAIRE

IF YOU HAVE RECEIVED A VACCINATION FOR COVID-19, A WAITING PERIOD OF UP TO 14 DAYS MAY BE REQUIRED BEFORE PARTICIPATING IN YOUR SDX EXPERIENCE. PLEASE REFER TO THE SEA LIFE MELBOURNE AQUARIUM'S COVID-19 DIVE MEDICAL UPDATE DOCUMENT

Anyone under the influence of alcohol or drugs will not be permitted to dive.

Drinking within 12 hours prior to your dive, or flying (or going up in altitude 300+m) within 12 hours after your dive, will put you at an increased risk for decompression illness and for your safety you will not be permitted to dive.

On the day, you will undergo a compulsory safety briefing run by our trained dive professionals. In this briefing, you will learn the importance of breathing and equalising while SCUBA diving, as well as how to safely use the equipment provided. Improper use of SCUBA equipment can result in serious injury.

If you have any questions regarding this Medical Statement or the Medical Declaration questions, please contact our Experience bookings office:
