

A Message from Magnus - Conservation

Hi! I'm Magnus the Shark.
Welcome to
SEA LIFE Sydney Aquarium!
Today we are going to
learn about CONSERVATION
What you can do to help
the ocean and its
animals!

Animals need...

... to survive!

Tyler the Turtle
wants to help
his endangered
friends out in
the ocean. Help
him protect them
by writing ideas
in the bubbles.

Colour Tyler in
back at school!

Magnus and his sharky friends live in the ocean. SALTWATER is very different to freshwater. What animals live in FRESHWATER STREAMS?

What would happen if we tipped chemicals down our sinks?

Pick an ENDANGERED animal that you saw on your visit to SEA LIFE Sydney Aquarium today. Draw it in the box below.

Write down some ways YOU can help your chosen animal!
